

Research Analyst

Aurora Energy Research is looking for recent graduates with a passion for the energy sector to join our new team in Chile. Based in Santiago, you will contribute to the firm by developing analysis and conveying insights to enhance clients' decision making. You will play an active role in all aspects of client engagement: helping identify issues, forming hypotheses, conducting analysis, and synthesizing conclusions into recommendations.

The successful applicants will combine technical strength with a strong track record of leadership, dedication, and performance in team-oriented environments. Successful candidates will work in a dynamic, and intellectually stimulating, yet supportive environment. They will enjoy autonomy, the opportunity to substantially influence major decisions in the energy sector, and to grow into industry experts under the guidance of directors with deep experience addressing major strategic issues at the world's leading advisory firms.

The position suits a recent graduate of a bachelor's or master's program.

Department

Research

Employment Type

Permanent - Full Time

Location

Santiago, Chile

Workplace type

Hybrid

Reporting To

Ines Gaspar

Key Responsibilities

- Develop timely and rigorous quantitative analyses to enhance clients' decision making
- Work closely with our modelling team, structuring economic problems into quantifiable analyses and deriving insights from the model results
- Contribute to Aurora's product development, by identifying new opportunities and expanding our capabilities
- Engage with clients to thoroughly understand their requirements
- Communicate findings to clients

What we are looking for

Required attributes:

- Degree in a quantitative subject (Mathematics, Economics, Physics, Engineering, Finance)
- Interest in or knowledge of power markets and associated policy frameworks
- An ability to collect, analyse and interpret complex quantitative data and information
- Evidence of strong performance in team-oriented environments

- An ability to communicate and collaborate with both technical and non-technical parties
- Proficiency in English (C1 level)
- Written and spoken fluency in Spanish (C2 level)

Desirable attributes:

- Existing knowledge of the Chile market and energy markets in general
- Competence in advanced data analytics (e.g. Python, Advanced Excel)
- The successful candidate would start in March 2025. We will review applications as they are received.

What we offer

- The opportunity to substantially influence major decisions in the energy sector
- Direct engagement with clients through Aurora conferences, workshops and webinars
- The opportunity to grow into a publicly visible industry expert
- A fun, informal, collaborative and international work culture
- A competitive salary package
- Access to regular coaching and mentoring sessions and the opportunity to learn from experienced professionals
- Access to the Aurora Academy, our training programme offering a range of opportunities to develop your skills within the responsibilities of your role and within the wider context of the industry

At Aurora we will consider all requests for flexible working. For most roles, the following types of flexibility are usually possible: a hybrid model of remote and in-office working, part-time hours and flexible start and finish times. Please talk to us at interview about the flexibility we could offer and we will explore what's possible for the role.

The Company is committed to the principle that no employee or job applicant shall receive unfavourable treatment on grounds of age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership and pregnancy and maternity.

The successful candidate would start in March 2025. The team will review applications as they are received. Salary will be competitive with experience.

To apply, **please submit your CV in English**, a brief cover letter, your salary expectations and state your earliest possible start date.

About Aurora Energy Research

From its academic roots, Aurora Energy Research is a thriving, rapidly growing company, currently serving over 600 of the world's most influential energy sector participants, including utilities, investors, and governments.

While we constantly strive to reach new markets and diversify our product portfolio, we are already active across the globe in Asia-Pacific, Latin America, Europe, and North America, working with leading organisations to provide comprehensive market intelligence, bespoke analytic and advisory services, and cutting-edge software.

We are a diverse team of experts with vast energy, financial, and consulting backgrounds, covering power, hydrogen, carbon, and fossil commodities. With this, we provide data-driven intelligence to fuel strategic decisions in the global energy transformation
